Project No. 321- 068- 1034 ZG

Dear Ms Edith Lindner,

I would like to share with you the great joy our people experienced as we went with food kits. It was a big surprise for them as we reached out to them, especially in this situation of pain and loneliness as no one reaches to their assistance. They have expressed their gratitude to you all. Moreover we are so happy and grateful to Misereor for agreeing with us in order divert our other activities and thus to save the situation that our people suffer due to the pandemic. Though only a few are supported, yet we are satisfied that we could help some at least. Thank you for your generous mind and all kinds of support.

There are many more deserving and eligible people in our target areas. Locally the ration they get is very little and again lock down is extended for 3 more weeks as the situation in Maharashtra is worsening. So the people are in panic how to maintain their families. In case you have any provision kindly let us know so that we can reach out to some more affected families in our villages. We are trying our maximum to contact good hearted donors to reach out to this cause.

Once again on behalf of our people and our sisters and staff I extend our heartfelt thanks for the great understanding you had in order to divert some amount from the project to this particular purpose. Thank you. Kindly find the photos. Praying for god's blessings

Sr. Jaya
